The top three rows of the table report the number of permits subject to the 120 day deadline which are issued each month, and the median number of days it took to issue those permits, which also is depicted in the bar graph. The bottom three rows of the table report the total number of applications received, decisions issued, and applications pending for all levels of construction approvals, including: Interim Construction Permits, Registrations, New Construction Permits, Federal Construction Permits, and applications for combined construction/operating permits (such as FESOP/NSR; Federally Enforceable State Operating Permit/New Source Review), as well as requests for modifications to existing registered or permitted sources, including modifications to Title V sources. However, modifications to Title V permits are tracked on page 11. Also note that exemptions are no longer tracked on this chart.
